

Watch Termidor H-E High-Efficiency Termiticide Success Stories

For more than a decade, **Termidor® SC** termiticide/insecticide and **Termidor® 80 WG** termiticide/insecticide have set the standard for termite control efficacy. Now, **Termidor® H-E** High-Efficiency Termiticide redefines termiticide application precision, volume, labor and time. New molecular technology, **Termidor® H-E Technology**, creates an Enhanced Protection Zone using less water, smaller trenches, wider drill hole and rod spacing, and shallower treatment depths.

Watch three pest management professionals share how they found greater peace of mind, profitability, and labor savings using **Termidor H-E** High-Efficiency Termiticide from BASF Pest Control Solutions.

- >> Bob Hanstra, president and owner of Reliable Exterminators in Lafayette, Indiana
- >> Scott Robbins, technical director for Action Pest Control in Evansville, Indiana
- >> Robert Croom, vice president of Augustine Services in Overland Park, Kansas
